CERTIFIED INFORMATION SECURITY MANAGER

AN INTRODUCTION

The ISACA governed Certified Information Security Manager (CISM) certification is the most sought after certification in the Information Security arena. Established in 2002, the CISM is a management focused globally renowned credential for professionals who create, build and administer enterprise security programs. This certification is a professional certification sponsored by the reputed Information Systems Audit and Control Association (ISACA). The CISM certification training is intended towards professionals working in managerial, consulting or related views in IT operations or compliance. Several CISM Certified Professionals today are functioning in the capacities of IT Directors, Audit Directors, CIOs, CISOs, CEOs, CFOs and other leadership positions showcasing a good demand as well as career advancement potential of the credential.
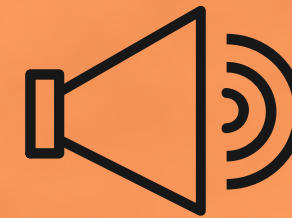

RECOGNITION AND CREDIBILITY

The CISM Certification is Globally recognized symbol of excellence in Information Security Professionals.

How to Earn Your CISM?

Step 1: Register for the exam
