ABOUT PRINCE2

PRINCE2 can be applied to any type of project within any industry sector. The method is widely recognized and understood and so provides a common vocabulary for all those involved in a project, which helps effective communication. The method also provides for the explicit recognition of project responsibilities so that participants understand each other's role and needs. There is a defined structure for accountability, delegation, authority and communication.

The development of PRINCE2 was driven by the feedback from end-users, project management specialists and a review panel of 150 public and private sector organisations. This has resulted in a generic best practice method which is flexible enough to be tailored to the specific needs of different organizations for all projects, including Agile delivery. PRINCE2 is compatible with all other project management qualifications as it provides the technical structure of the framework for the project, which will complement the softer skills learnt on other qualifications.

BENEFITS OF PRINCE2 CERTIFICATION

PRINCE2 (Projects IN Controlled Environments) is a structured method for effective project management. It is a de facto standard used extensively by the UK Government and is widely recognized and utilized in the private sector, both in the UK and internationally. Here is only a quick list of some of the benefits that using PRINCE2 brings

The Brief

It offers reviews of progress against the business case and project care.

It will imply that there is a common project language and gives flexible decision points.

It will also mean that there is a good flow of communications between the stakeholders and other project teams, as well as improved levels of customer satisfaction

It gives a standard approach to managing projects

It will also provide a way for being able to manage any deviations from the project plan

It is easier to determine the possible problems that might or are happening.

Why Prince2 Certification?

UNDERSTANDING

You will obtain greater control of Resources, and the ability to manage Business & Project Risk more effectively.

RECOGNIZATION

The credential has garnered Global Recognition and command a higher salary for Certified Professionals over Non-Credentialed Professionals

DEVELOPE

Develop a Product Based Planning approach for projects that divides them into Manageable and controllable stages.

RESPECT

This certification recognizes the competence of an individual to do, specifically experience in Leading and Directing Projects successfully.

IMPORTANCE

OF PRINCE2 CERTIFICATION

1ST

More structured approach to Project Management as provides a method for managing Projects within a clearly defined framework.

2ND

Systematic & Logical Procedure to coordinate among the People & Activities in a Project

3RD

Excel in Designing & Supervising the project along with an adjustment in the project in case it doesn't develop as Planned.

4TH

Receive an automatic control of deviations in the plan as each process is defined with its key Inputs, Outputs, Goals & Activities.

5TH

Implement a better & efficient control of resources since the method is divided into Manageable Stages.

PRINCE2 EXAM

The PRINCE2 2017 Certification Scheme builds on PRINCE2 2009, but places a fresh emphasis on tailoring the method to the needs of organizations and project management environments. It makes up the Foundation, Practitioner and PRINCE2 Agile Practitioner qualifications.

The format of the Foundation exam is as follows:

50 minute exam duration

60 questions
